Subject: Upriver Reach Dioxin/Furan Characterization Data Report

[CAUTION: External email. Think before you click links or open attachments.]

Hi Mike and Eron,

The Upriver Reach dioxin/furan characterization data report has been finalized and is available on the DEQ website: <https://www.oregon.gov/deq/Hazards-and-Cleanup/CleanupSites/Pages/Willamette-River.aspx>. Please also see the associated EPA & DEQ Fact Sheet: [Willamette River Upriver Reach Dioxin and Furan Investigation \(July 2022\)](#). Analytical data generated as part of the Upriver Reach characterization is being processed and will be available in the next week or two through the Portland Harbor Interim Database or via Scribe.

Feel free to reach out if you have any questions.

Madi Novak, Remedial Project Manager
EPA Region 10, Superfund & Emergency Management Division
Oregon Operations Office
